Mountain Weather Forecast

Mourne Mountains

Forecast valid from 00:00 on Friday 29 Oct 2021 until 23:59 on Saturday 30 Oct 2021

Forecast Issued on Thursday 28 Oct 2021 at 16:40

Confidence: High for unsettled conditions with the main uncertainty being the timing of the various bands of rain. There is also good agreement for colder conditions arriving next week.

Headline for Friday 29 Oct 2021: Early rain will clear to leave fine and bright conditions. Breezy and rather cool.

Forecast for Friday 29 Oct 2021

Weather: Cloud will thicken through the early hours to bring a spell of rain by dawn. Early rain, perhaps on the heavy side, will quickly clear away eastwards to leave a bright, occasionally sunny day. Further rain will spread east towards midnight.

Chance of cloud free mountain/hill tops above 700m: 20% soon improving 90%.

Visibility: Cloud will likely shroud slopes above around 500m initially and heavy rain will lead to a dull start to the day with visibility limited to several kilometers. Much improved conditions will arrive through morning with visibility becoming very good with little, if any low level cloud.

Meteorologist's View

Nothing to add.

Forecast for Saturday 30 Oct 2021

Weather: Heavy rain will pass through during the early hours leaving a damp but bright start. The day will be predominantly dry, save for the odd light passing shower, with plenty of sunshine. Dry through evening.

Maximum wind: Southwest 15-25mph.

Chance of cloud free mountain/hill tops above 700m: 10% improving 80% through morning.

Visibility: Away from early rain and any showers, visibility will be very good with some far reaching views on offer. Patchy cloud may cling to summits initially, after which very little low level cloud is expected.

Temperature: **Valleys:** Plus 6 Celsius rising to around 10 Celsius.
At 700m: Plus 3 or 4 Celsius.
Freezing level: Above summits.
